

Provider Notice

In preparing for the upcoming Residential program changes, Magellan is working to ensure specialty information about the various Psychiatric Residential Treatment Facilities (PRTF) and Therapeutic Group Home (TGH) programs are obtained. Gathering this information about program details and specialties will help Residential Care Managers make informed referrals when developing a residential referral list for a youth who is being assessed through the Independent Assessment, Certification and Coordination Team (IACCT).

The Residential Program Description form is posted on the [Residential Program Process webpage](#) on Magellan of Virginia.com.

The form can also be accessed at: <http://magellanofvirginia.com/for-providers-va/residential-program-process.aspx>.

Please follow the link above to complete the form and submit it by **June 1, 2017**. Providers who have multiple programs may submit one form for each program.
