

Weekly Friday Provider Call Agenda

(08/11/2017)

Program updates/announcements from today's meeting:

#1 GAP SMI Screenings

This is just a reminder that providers can check the status of their GAP SMI submissions on Magellanprovider.com and can contact Magellan if you have any specific questions about the status or review.

Questions/Topics to be Covered in Today's Call (08/11/2017)

**Please note, all questions covered on the call are global questions. Global questions submitted by COB each Wednesday that are not listed below require additional research and will be covered on a future call. If you submitted a question that was specific in nature, you will receive an email with a direct response.*

Follow-up Questions from Previous Friday Provider Call 08/04/2017

Outpatient Authorizations

#1: Does the Magellan communication about ending pre-auths for regular outpt mh appts- also apply to substance abuse outpt services? Does this also apply to GAP members? Does IOP level of care still require an authorization?

#2: Where in the ARTS manual does it reference that Substance Use Case Management services requires a registration? Was there an eblast that went out informing providers about this?

****This ends the follow-up/pending questions portion from the previous Friday Provider call.****

Questions/Topics to be Covered in Today's Call (08/11/2017)

**Please note, all questions covered on the call are global questions. Global questions submitted by COB each Wednesday that are not listed below require additional research and will be covered on a future call. If you submitted a question that was specific in nature, you will receive an email with a direct response.*

Concurrent Submissions (All Levels of Care)

#3: I am overdue in submitting a request for reauthorization. I had begun the paperwork at the appropriate time using the continued stay guidelines and forms. Will this still be ok to use?

GAP Coverage

#4: Does GAP cover the ARTS billing codes 80305, 81025 and 82075 for a urine drug screen, pregnancy test and/or alcohol breathalyzer?
